Foreword

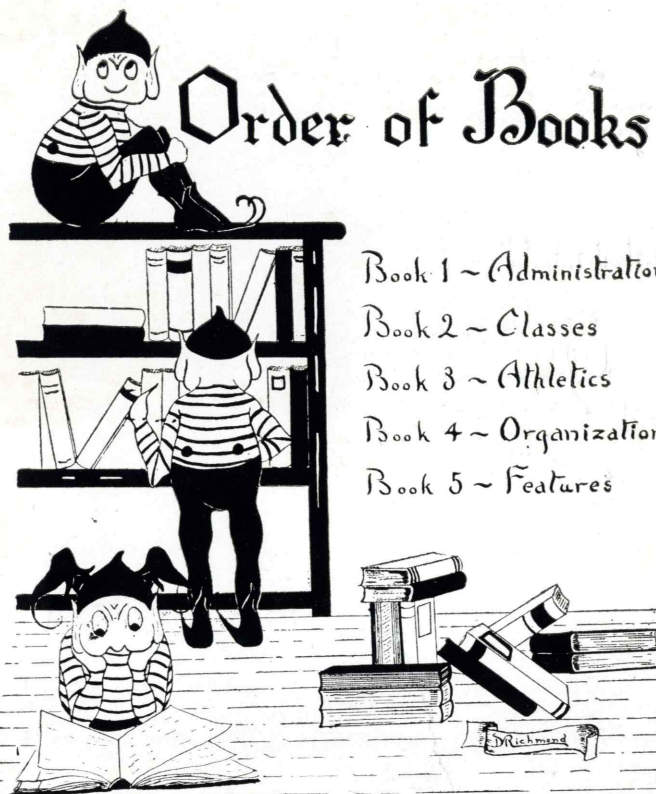

IN preparing this 1924 book of memories, we regret that there is only space for the outstanding features of the year; but the little things our readers can supply. The guitar with more strings would not be as sweet. So may your steel wander o'er the frets and bring pleasing harmonies of individual memories.

To

MR. JAMES W. MOBLEY.

We do respectfully dedicate this the
eleventh volume of THE LAGNIAPPE,
as a token of our sincere appreciation
of his work at the old L. I. L., in the
class room, on the athletic field, in stu-
dent organizations, and principally as
the editor of our first LAGNIAPPE.

BOOK I

ADMINISTRATION

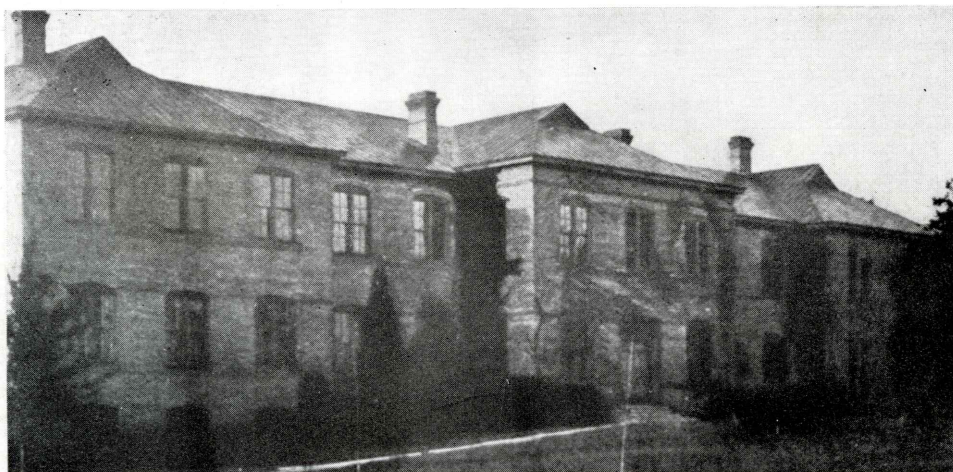

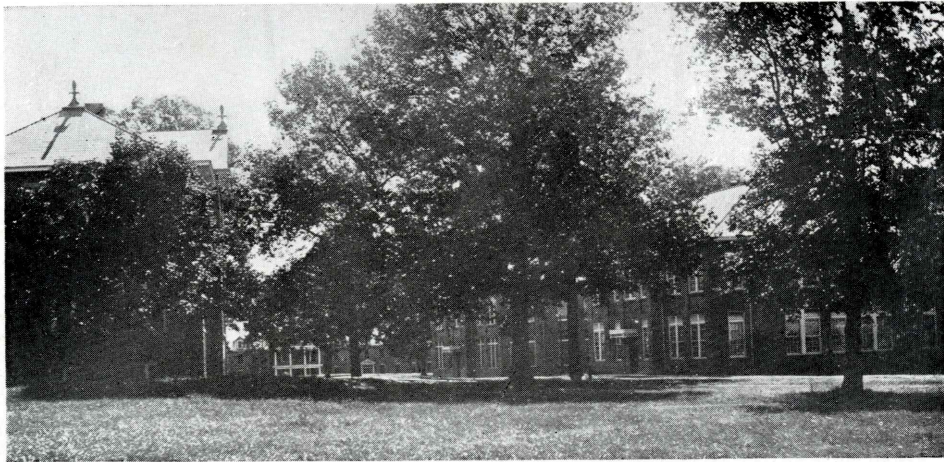

Through these entrances and out again,
Through these spacious halls,
Have walked and sojourned the morrow's men,
That they might answer Fortune's calls.

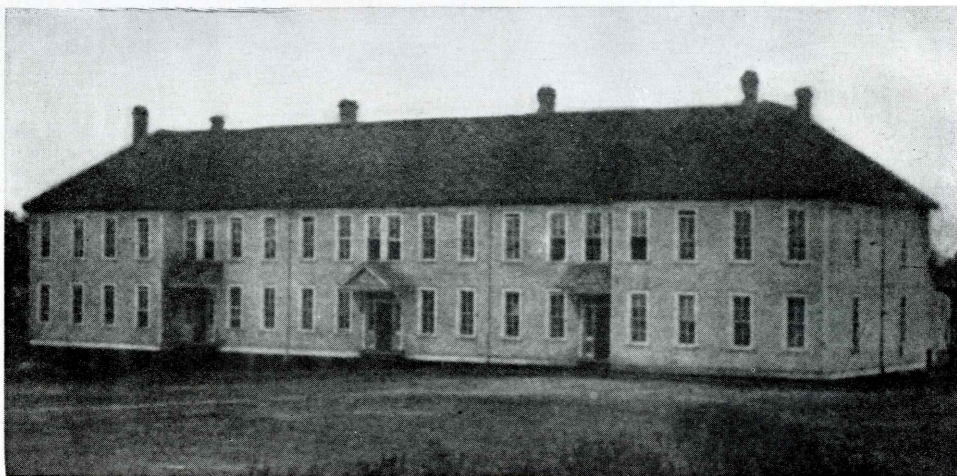

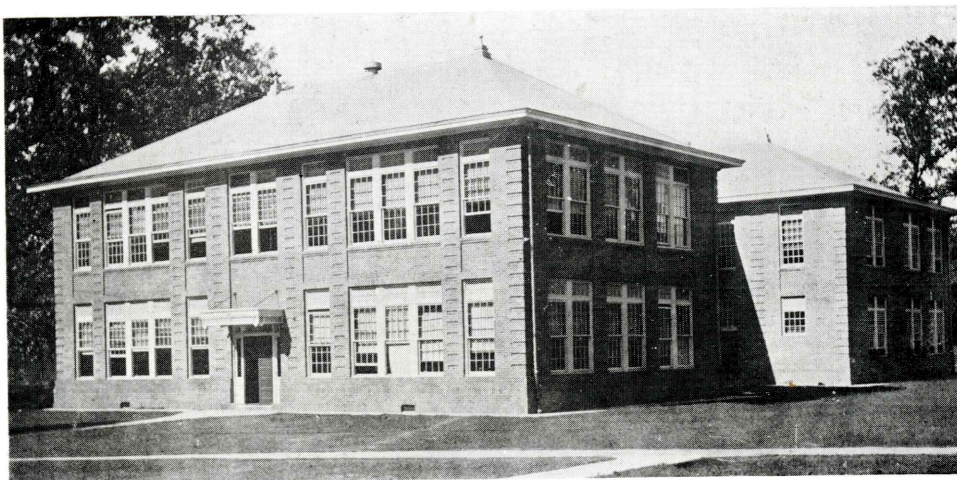

Builder of men, who are mighty and strong,
Vault of tradition as years roll along;
Where future men obtain their start,
And grow in spirit, mind, and heart.

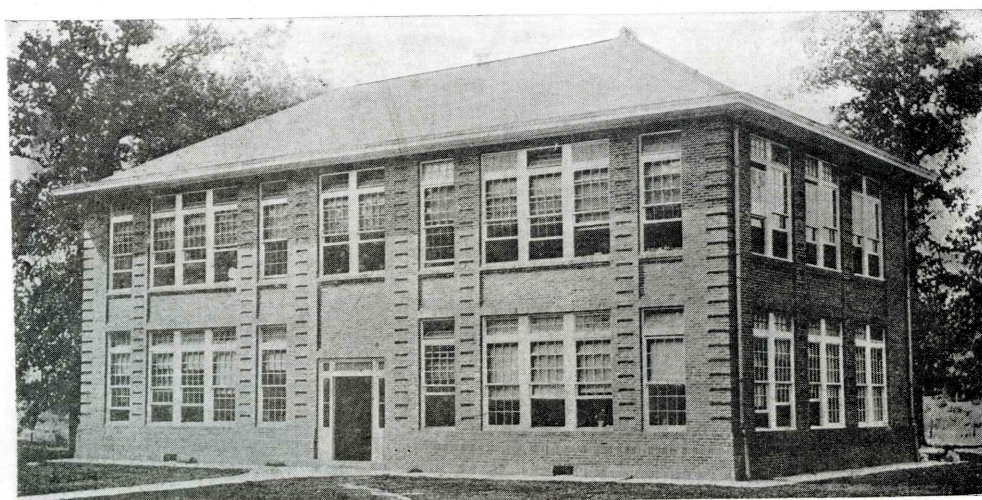

A lapse of time means countless changes,
Such these buildings witness bear;
'Tis marked, the change that years have wrought,
'Tis wonderful, indeed, and fair.

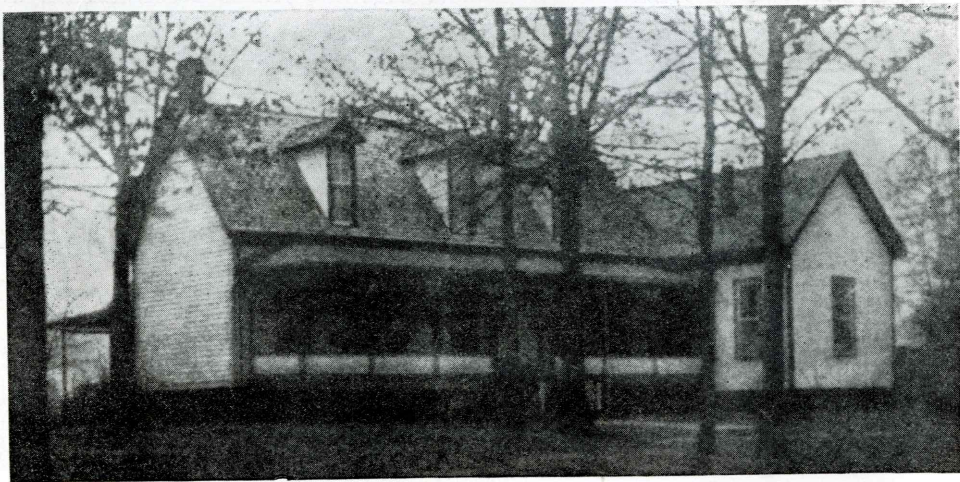

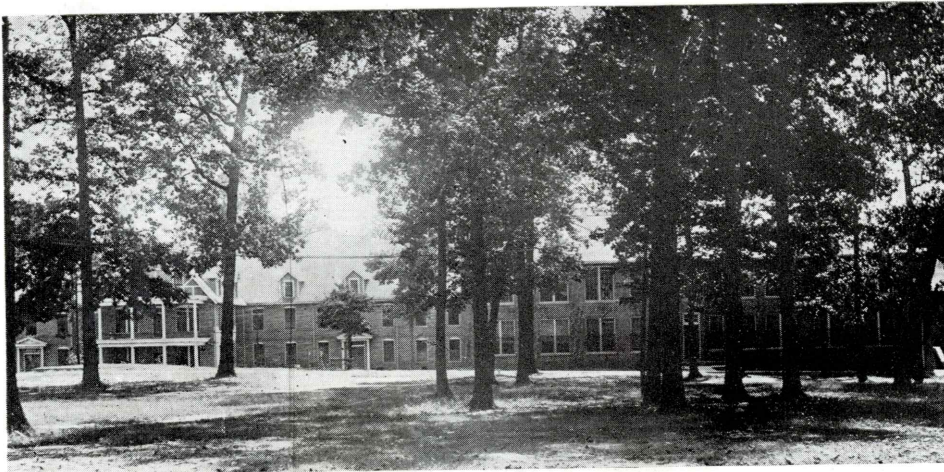

From lesson plan and critic teacher,
Practice teachers learn to teach;
As they learn, they gain in turn
Success that all men strive to reach.

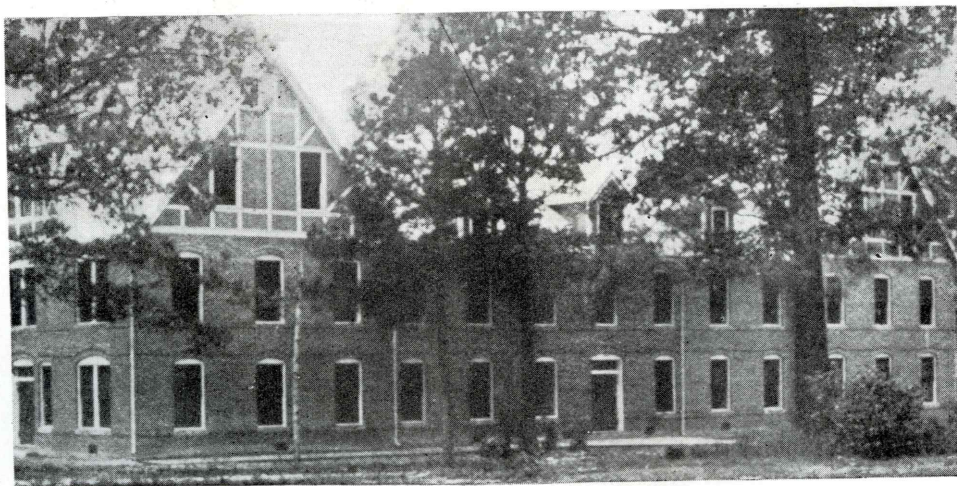

The home that was ; the home that is—
Now draw your contrast while you may ;
For time may other changes bring,
Another home, another day.

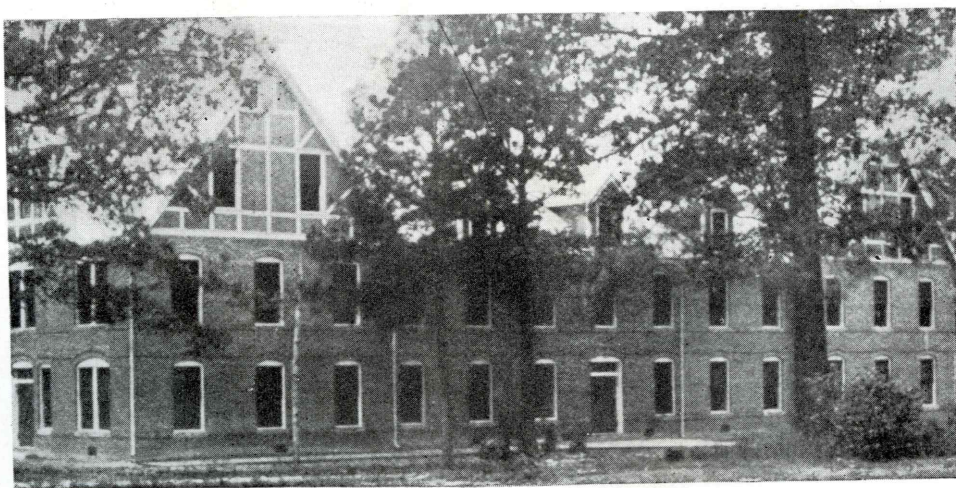

Wars have ceased, 'tis peace at hand ;
Yet Tech. lives on with "No Man's Land,"
And we, who would that land explore,
Must seek for shelter our own door.

Wars have ceased, 'tis peace at hand;
Yet Tech. lives on with "No Man's Land,"
And we, who would that land explore,
Must seek for shelter our own door.

Faculty

J. E. Keeny has, without a doubt, done more for the Louisiana Polytechnic Institute than any other person, having successfully guided the school through 17 years of progress.

With him "business is business"—and school work is decidedly business. True to the school aim "to make the thinker a worker and the worker a thinker," he allows no shirking of responsibilities. No student enters his office door who does not come out a better worker or a clearer thinker.

Even as he thinks and works—and knows how to think and work—he plays, and knows how to play. Fishing is his favorite sport, and he is widely recognized as an adept angler.

Might as well ask if a nautilus fits his shell as to question his fitness for his position. He has made the place, and none other could fill it.

Long live J. E. Keeny as President of the Louisiana Polytechnic Institute!

SENIOR POEM.

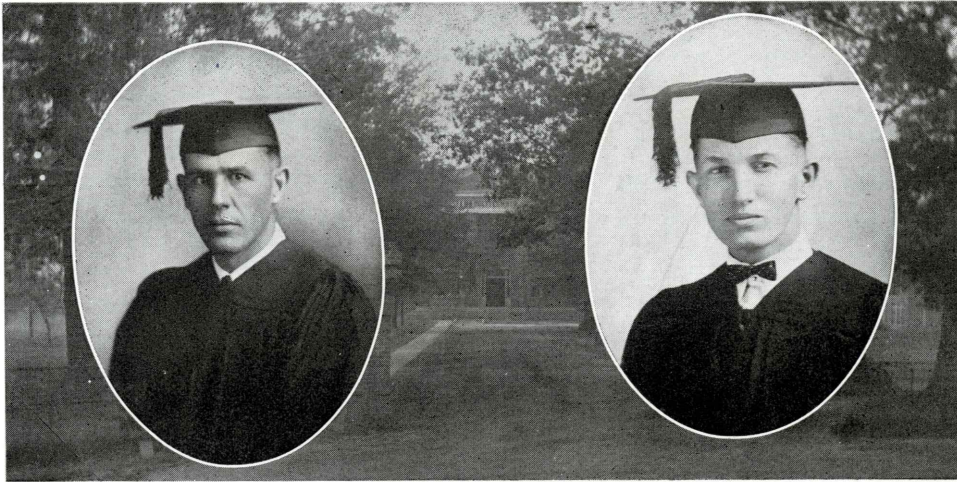

BY KATHLEEN ALEXANDER

Farewell, classmates!
Our tasks at Tech are done.
How hard we've had to study!
Yet we've had just loads of fun.

We've had sadness
From lessons given to do;
But now we can't find gladness
When our lessons are all through.

Tech, we love you,
We love your very name.
To you we'll give the honor
If we e'er attain to fame.

You have taught us
To play the game of life.
May memory serve us truly,
When we meet with toil and strife.

PRESIDENT
BRUCE SMITH
 Winnfield.

*Candidate for B. S.
 School of Engineering.*

Zeta Alpha Kappa; Football 1, 2; Baseball 1, 2; Assistant Coach 3, 4; Wesley Bible Class 1, 2, 3, 4; Pres. 3; Sophomore Dramatics 2; Class President 2; Most Popular Boy 4; Class President 4.

"Gunboat's" initials may have gained his nick name for him, but all indications point toward his feet. What can't he do and what hasn't he done? Studied a little, taught a little; read a lot, talked a lot; played ball just more than we can tell, and even courted some, they say.

Modern literature holds no book too new for him to know, and the campus harbors no freshie who is too new to know him.

We think he is going to make a great college athletic coach.

VICE-PRESIDENT
F. E. LYLES
 Alto.

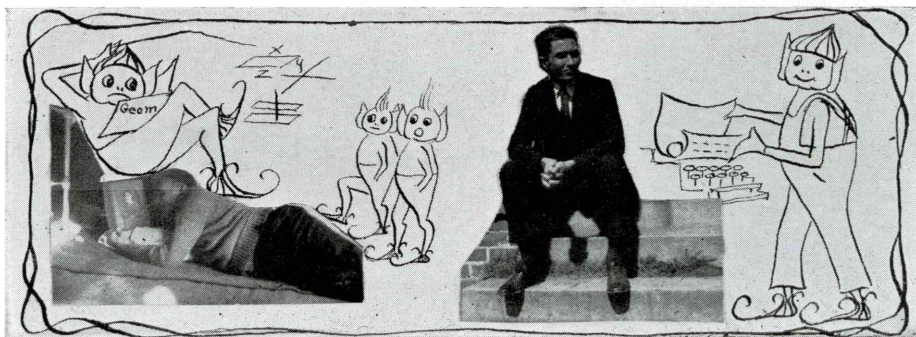

*Candidate for B. S.
 School of Education.*

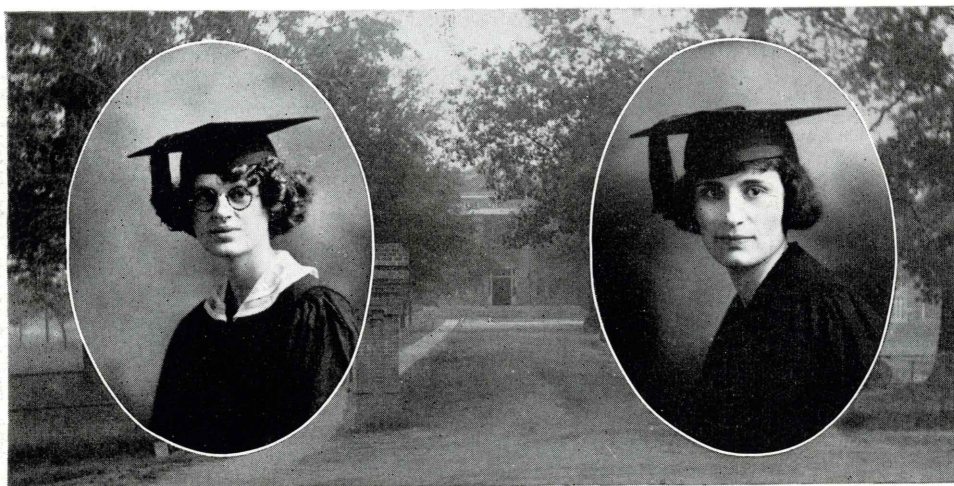

Zeta Alpha Kappa; Y. M. C. A. 1, 2, 3, 4; Treas. 2; Sec. 4; Class Historian 3; L. P. I. A. A. 3, 4; Cap and Gown Club 3, 4; Vice-Pres. 3; Lagniappe Staff 4; Class Vice-President 4.

Felix hails from Alto and, with all his charming mannerisms and gentleman's airs, is a true student. His reading reports in Ethics have set a standard many poor Juniors will regret even while his teachers rejoice.

For two years he led the Aggie life but in his Senior year changed to Education with the idea of teaching school.

His ability to peck a Remington is astounding. Some day we hope he will have one all his own in a nicely fitted office in a brick building.

SECRETARY-TREASURER

MILDRED E. NIXON

Ruston.

*Candidate for B. A.
School of Education.*

Sigma Phi Iota; Wesley Bible Class 1, 2, 3, 4; Pres. 2; Chorus 1, 2; Sophomore Dramatics 2; Cheer Leader 2, 3, 4; Spizz Staff 2, 3, 4, Editor-in-Chief 2, 3; Cap and Gown Club 3, 4; Secretary 3; L. P. L. A. A. 3, 4, Assistant Secy-Treas. 4; Glee Club 4; the English Eleven; Alumni Family. Class Sec-Treas. 4.

"Campus Pest" is right there with brains, pep, accommodation and work—everywhere at once, nowhere in particular.

She preaches Lagniappe, flunkies for the Boss Man, drives a mean Ford and even teaches a little. She's the "shining light" of her classes, putting "dimmers" on other studes. Literary ability plus leadership especially fit her for editing.

Pep? Notice her at a game. We'll wager she can raise more noise than five girls her size.

Despite these qualities indicating fame in business or politics, we predict a bungalow for two—or more.

JEWELL BOND

Ruston.

*Candidate for B. A.
School of Music.
Summer Class.*

Chorus 1, 2, 3; Band 2; Orchestra 2; Term President 4; Cap and Gown Club 3, 4.

Never was a girl more adaptable. Jewell is as much at home on the piano stool as in the saddle. Often she paints china in the most delicate and intricate designs; then in English class she twists words for shades of meaning.

But her real interest lies in Welfare Work, and no doubt she could tell us now just how many calories per day each member of her Sunday School class should be given.

We predict travel for Jewell to foreign shores as a typical American girl.

MARY SIMMS
Shongaloo.

Candidate for B. S.
School of Home Economics.
Fall Class.

Y. W. C. A. 1, 2, 3, 4; Wesley Bible Class 1, 2, 3, 4; Sophomore Dramatics 2; Cap and Gown Club 3, 4; L. P. I. A. A. 3, 4; the English Eleven; Lagniappe Staff 4.

*"Mary, Mary, quite contrary,
How does your garden grow?"*

We think of this old rhyme and our Mary together, for she's the most modest, shy, home-and-garden loving little person we know.

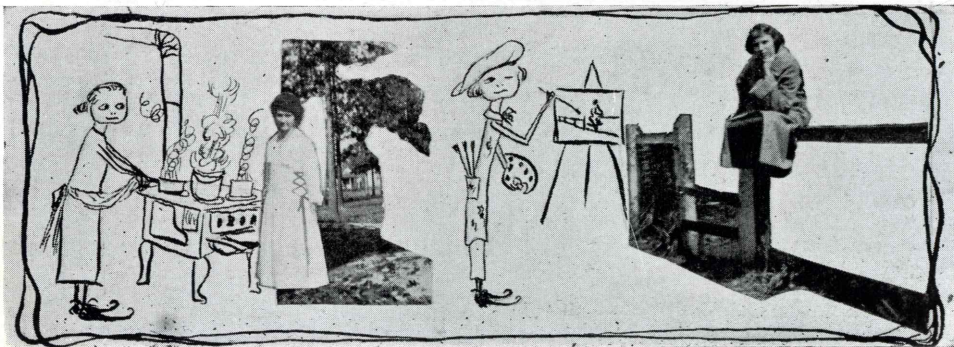

Think of all the nice things you ever heard and apply them to Mary. She is neatness, kindness, sympathy and friendliness, all united into one small young lady.

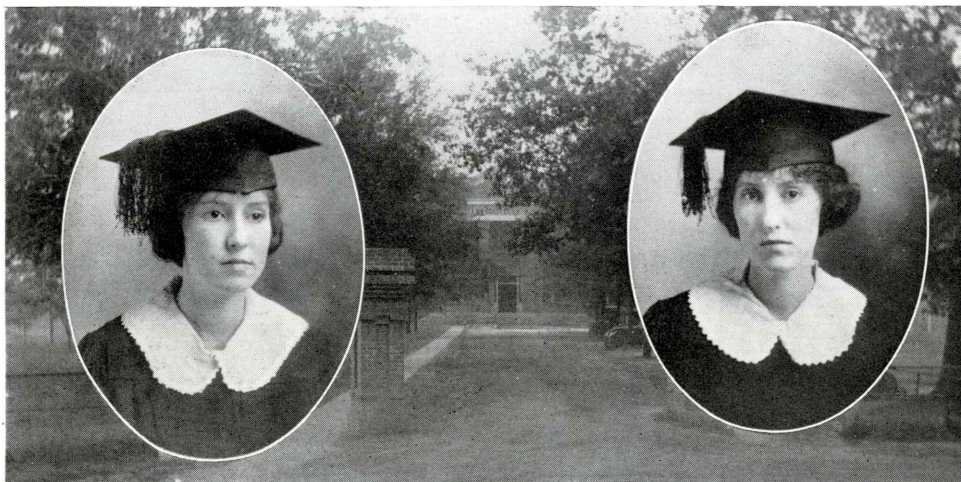

We foretell a cozy little home with an old-fashioned fireplace before which she, with her sewing basket, sits and tenderly watches a masculine figure sprawled out in an easy chair.

LUCILLE SPINKS
Vienna.

Candidate for B. A.
School of Applied Art.
Fall Class.

"Let's go! Somewhere—anywhere—just so we're going!" is her cry, but she has plenty of time to do lots of work and speak a cheerful word to everyone. She's always playing tennis to reduce—and dieting to get fat. Contrary to the general belief, she isn't really hardheaded; she just has a determination to succeed in anything she attempts, even needle work. She is one of the best and most lovable girls we know, and her best quality is that she doesn't know it. We prophesy for her a dominion of a cozy little cottage and a "Yank."

WILBA C. WILLIAMS

Many.

Candidate for B. A.

Schools of Education and Music.

Fall Class.

Y. W. C. A. cabinet 1, 2, 3, 4; Sophomore Dramatics 2; Band 3, 4; Cap and Gown Club 3, 4; Vice-Pres. 3; President 4; Lagniappe Staff 3; the English Eleven; L. P. I. A. A. 3, 4.

Heard of Kate and Dupli-cate? Don't know which is Little Sister, but she is original. If one tried to picture Wilba, it would have to be a dittoed movie. Now she writes on Wordsworth's Philosophy, now on nails. Next she chases to band and pushes cornet keys, but before you know it, she is practicing some play.

Between times she sews, writes letters and plays the piano. 'Tis a wonder she has time to make friends, but she has scores of 'em.

We prophesy for her a Stutz on an asphalt highway.

WILMA C. WILLIAMS

Many.

Candidate for B. A.

Schools of Education and Music.

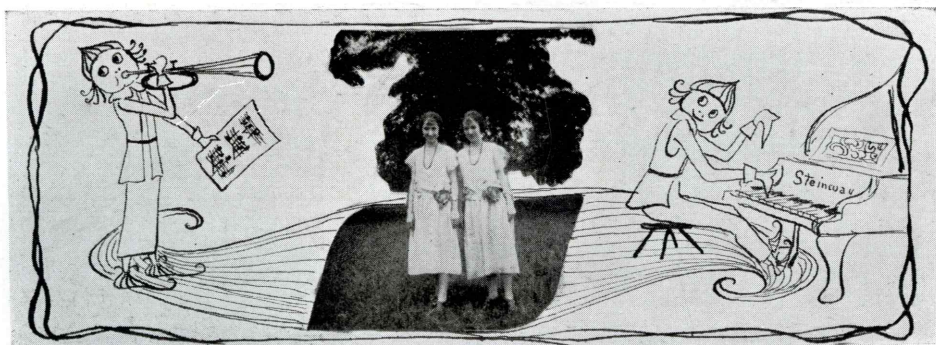

Fall Class.

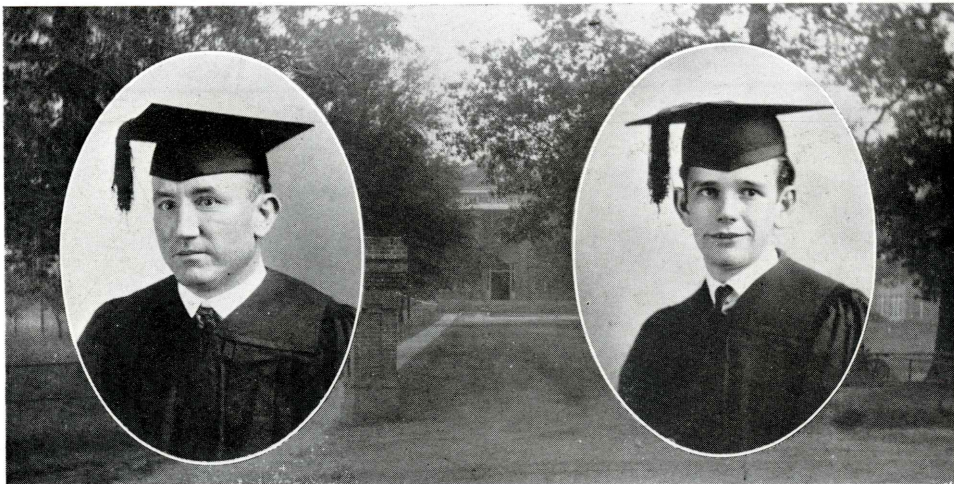

Y. W. C. A. cabinet 1, 2, 3, 4; Sophomore Dramatics 2; Band 3, 4; Cap and Gown Club 3, 4; Treasurer 3; Reporter 4; Lagniappe Staff 3; the English Eleven; L. P. I. A. A. 3, 4.

Is Wilma like her sister or her sister like her? Give it up. Think the pictures are mixed anyhow, so we'll mix the writeups.

Remember when she entered four years ago? The teachers began trying to tell 'em apart. Tried to tell which was better in Math; tried to tell the piano touches apart; tried to distinguish between their themes; but no one could even tell which doublet co-operated better.

Doubly blessed with sense and ability, we know Big Sister will mystify and entertain many Chau-tauqua audiences.

ANDREW LARPOR JONES

Grand Chenier.

*Candidate for B. S.
School of Business.
Winter Class.*

"Dumb-bell Jones." Ever hear that? Although he seemed such at times, he really had the ability to put over what he knew.

His proper setting is delivering a speech on "Louisiana High Schools Properly Organized" to interested educators.

Can't you hear him now as he said in his classes, "Doctor! Doctor! I've got a question I'd like to ask?"

Never a better student nor a steadier worker has walked Tech's halls; and he is sure to bring honor upon the class.

We see him, in later years, as a great orator holding large audiences spell-bound.

WALTER L. MOORE

Ruston.

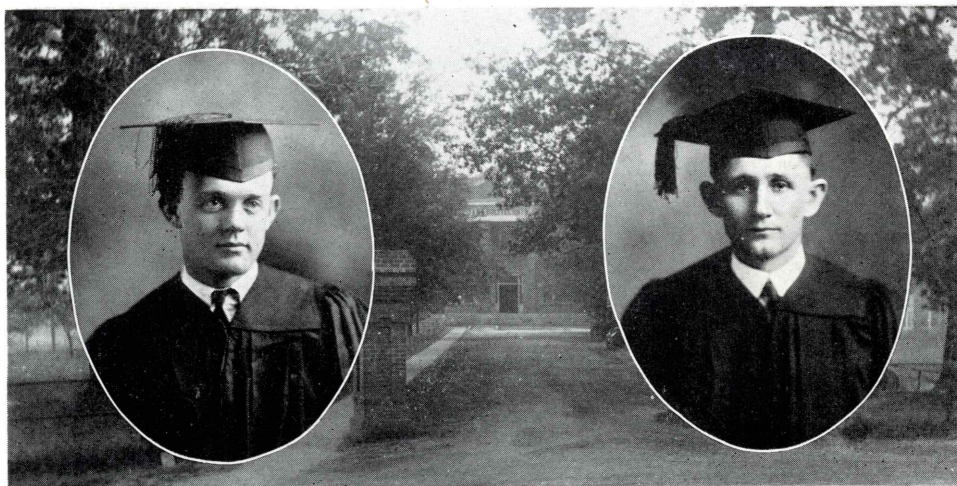

*Candidate for B. S.
School of Business.
Winter Class.*

Zeta Alpha Kappa; Sigma Phi Iota; Band 1, 2, 4; Sophomore Dramatics 2; Tech Baptist Class 1, 2, 3, 4; President 2, 4; Cap and Gown Club 3, 4; Reporter 3; Treasurer 4; L. P. I. A. A. 3, 4; Associate Editor Lagniappe 4; the English Eleven. "Tater" comes to mind when profs talk about "I. Q.'s" and "A. Q.'s". Brains! I'll say he's got 'em, yet he's a regular fellow—hunts, fishes, plays tennis, and makes a typewriter toddle right off the desk. He's also proficient in Ford driving—with one hand.

Add to brains and frivolities, a serious regard for life's better things, good literature, music, art, etc., and there's Walter.

Whether as corporation president, Supreme Judge, or whatnot, he is sure to fill his niche admirably.

J. ORION OWEN
Hico.

*Candidate for B. S.
School of Engineering.
Winter Class.*

Zeta Alpha Kappa; Y. M. C. A. 1; Cap and Gown Club 3, 4, Treasurer 4; Lagniappe Circulation Staff 4.

Orion is Tech's ladies' man. Like the sirens who charmed sailors of old, he bewitches ladies through strange unbreakable spells; young, old, lean, fat—all succumb to the charm of his permanent wave and guileless smile.

Despite vampish ways, Orion is a general favorite, a worthy student who has never trembled at mention of the "Hog-Law."

For other characteristics, eccentricities, or idiosyncrasies, we'll only say "He roomed with L. O. Fox".

We predict permanent waves of success equaling those of his hair gained by Fox's diligent efforts with curl papers.

ROBERT L. VINING
Ruston.

*Candidate for B. A.
School of Education.
Winter Class.*

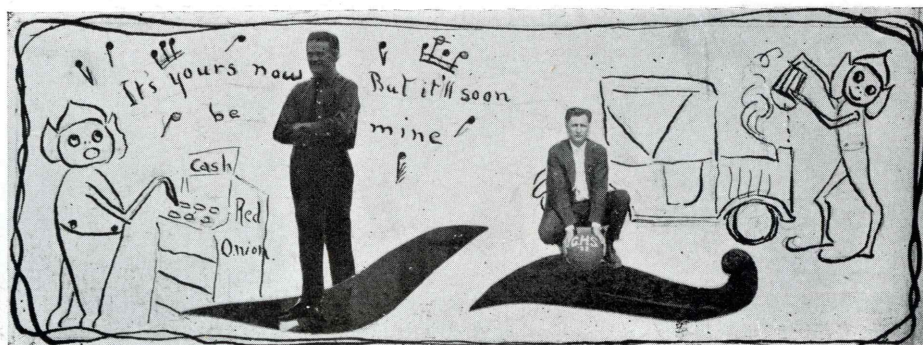

Alpha Omega; Class Representative 2.

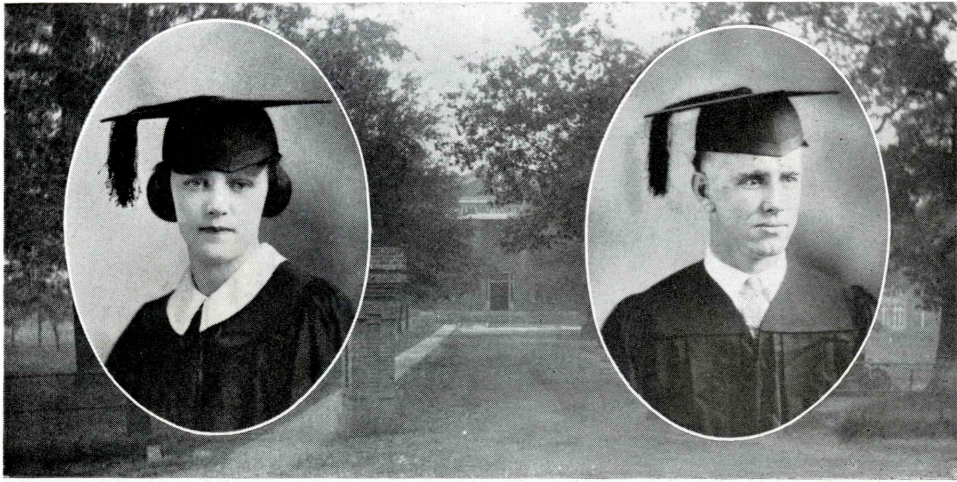

Vining is long and tall, always into everything, not maliciously but always helping. In class he lends aid to the professors by long and learned discourses on practical subjects: "Neurones," "Synapses," "Importance," etc.

He's ready and waiting when it comes to putting across social movements. As nothing was too hard for him to try, he ably represented his class when finishing Junior College.

Robert is another Ford driver. He's married, however, so hands off, ladies!

Interest in education and educational matters causes us to predict renown and fame "pedagogically."

Everyone knows Kat for gesticulating when talking. Oh! how she can rave on almost anything, particularly "How to get a husband"! She knows, because she has been taking dots in English X Class.

She has wonderful ability for working Chemistry problems and other class problems for that matter. She really is a good all around student.

Did she ever meet a stranger? If you've met her you'll say "No."

We see her in future years a prominent city doctor, but even at that she's her same ole self.

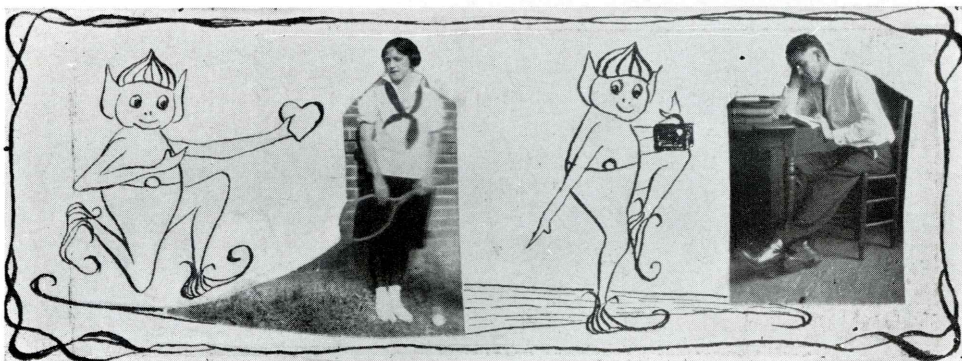

Sigma Phi Iota; Wesley Bible Class 1, 2, 3, 4; L. P. I. A. A. 3, 4; Cap and Gown Club 3, 4; Winner Snap Shot Contest 4; Photograph Editor Lagniappe 4.

Allen is a typical Senior, dignified, reserved brainy, possessing "good bay-hoss sense," and entering into all school activities.

His themes and literary criticisms are English teachers' joys. Remember how Miss Johnson read his papers to English X, actually expecting them to approach his standard?

Reason? Ye gods! He'd scare the rest of the class dumb with his profound answers to incomprehensible questions in psychology and astronomy. Nor do business problems hold terrors for him.

Judging from these many accomplishments he'll have a famous career in the business world with ample remuneration.

LOTTIE C. CARAWAY
Sugartown.

Candidate for B. S.
School of Home Economics.
Spring Class.

Sigma Phi Iota; Y. W. C. A. 1, 2, 3, 4; Baptist Tech Class 1, 2, 3, 4, Secretary 1, Vice-Pres. 4; Cap and Gown Club 3, 4; Secretary 4; Lagniappe Staff 4; the English Eleven; Class Representative 4.

Lottie had been out of school teaching, but she slipped into Tech classes and student activities so easily, we regard her as a cornerstone. Her emergency power is exceptional. She became Moll White on a minute's notice and saved the reception play. But her work is never done in spurts. Lottie is the dependable, even-tempered variety, else she never would have controlled Lagniappe's Faculty section and the Cap and Gown Club's secretarial book. We hear she is to teach. How we envy her pupils!

LESTER CHEATWOOD
Ruston.

Candidate for B. S.

Sophomore Dramatics 2; L. P. I. A. A. 3, 4; Spizz Staff 3, 4; Cap and Gown Club 3, 4; Vice-Pres. 4; Lagniappe Staff 4; the Alumni Family.

Eppie is dignified, when occasion demands, but we always think of her with jolly smiles and twinkling eyes.

She likes fishing, the attraction having something to do with hook baiting; but she collects Soph. pictures, decides on class flowers, and gives parties to visiting ball teams on an hour's notice.

As a student, she has a sound reputation with soaring ambitions. Some university shall receive her if, Sampson like, she keeps her locks unshorn. Eventually we see Lester in a beautiful and well-equipped kitchen preparing dinner for two—or more.

LEE OLIVER FOX
Lecompte.

*Candidate for B. S.
School of Engineering.
Spring Class.*

Alpha Omega; Sigma Phi Iota; Y. M. C. A. 1, 2, 3; Class President 2; Student Instructor 3, 4; Cap and Gown Club 3, 4, Secretary 3; Assistant Manager Lagniappe 3; Business Manager Lagniappe 4.

Sly Fox shuns some grapes but gets there in interpreting an Entropy-Heat diagram or diagnosing a Thermodynamics case. Skilled in Mechanical, Electrical and Civil Engineering, Fox is also competent in Financial Engineering, having had at different times the money-handling responsibility for student activities.

Cunning and alertness are drawing cards for him socially. Even the propensities of Cupid's snares have proven insufficient to inveigh him into following a path other than a strictly business proposition.

When his prospective employer in big engineering asks "Single or married?", Fox answers "Just one."

LILLIAN SKINNER

"Got some gum? Aw, shoot! Well, let's go to the little store and get something to eat."

Lillian is a valuable member of the Glee Club, and sings in quite a grand opera manner; rides dashing horses as well as hobby horses.

She is at home on a piano stool, playing either classical or jazz music, according to her audience. She is lively, witty, and good to look at.

We predict she will astound even the extreme Parisian with her brilliant compositions.

WILBER E. MECOM

A whole long year we've studied,
Now we're feeling mighty fine;
And each to each is saying,
"Thanks, no Freshman's luck for mine!"

On sands of time imprinting
Our life story now we make;
Reminding us tomorrow
Life will be ours just to take.

When back the years we're turning
And we speak of days of yore;
I tell you, we will tell 'em

BOOK III ATHLETICS

Our Coach, WILLIAM H. "LONESTAR" DIETZ

ATHLETIC DIRECTOR

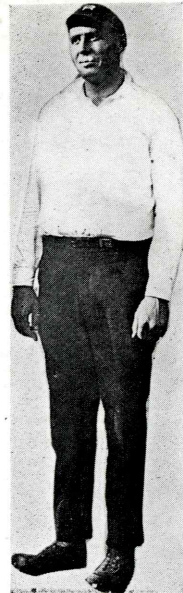

MAJOR P. S. PRINCE.

Major, who has charge of all the athletics at Tech., has lived up to his reputation of being able to get a real schedule for any season, and has shown his ability in financing college ball clubs. Athletics at La. Tech., in his charge, are sure to step into the limelight.

ASSISTANT COACH

BRUCE "GUNBOAT" SMITH.

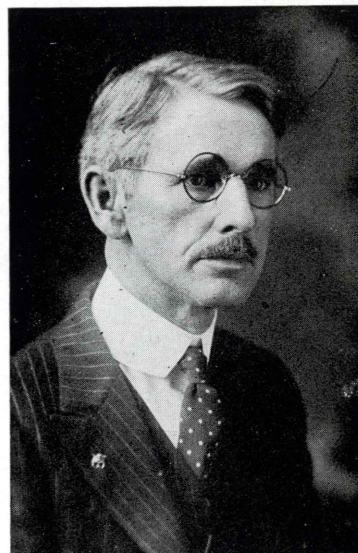

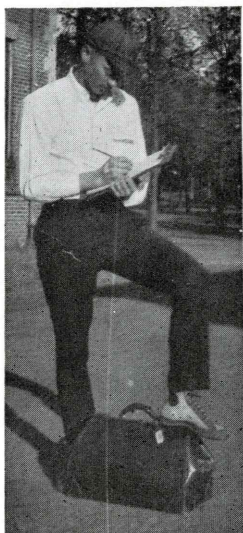

"Gunboat" needs no introduction, for his playing at L. S. U. and Tech., has made him well known. Now as the assistant coach at Tech. he is one of the South's most promising coaches. He is, as the scrubs say, a man who "knows his stuff," whether it is football or baseball.

ATHLETIC PHYSICIAN

DR. J. H. PANKEY.

A competent "Human Mechanic," an ever ready helper, one faithful to the boys always; is a very short description of this very essential man to Tech's athletics.

ASSISTANT MANAGER

"DOC" V. W. BARBER.

After two years on the trainer squad "Doc" was promoted to this position, which is by no means a soft one, but one which a man is proud to have filled.

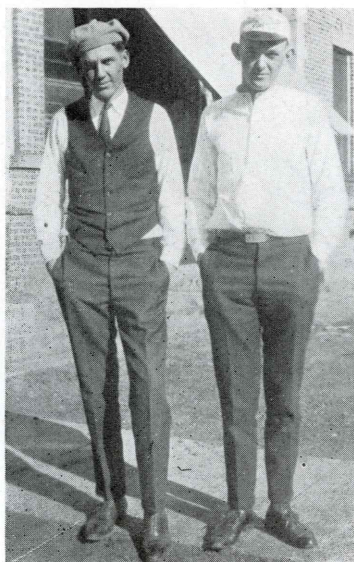

TRAINERS

L. L. GREER

and

J. H. KOONCE

These two fellows are students, but two more earnest workers never assisted a ball team. These fellows believe it's lots of work, little reward, but helpful to Tech.

Roe
Hollis
Capt. '23
Football  Baseball

"BIG SHORTY" FLEISCHMAN,

The captain elect, is the guard from Indiana that smeared the Tulane-Minnesota shift and made the holes for the ever-ready backs. His battle cry may not do to print, but the Bulldogs were sure to respond to his call. From his past record, there is no doubt that Tech. has the best of captains for the 1924 season.

E. L. WALKER,

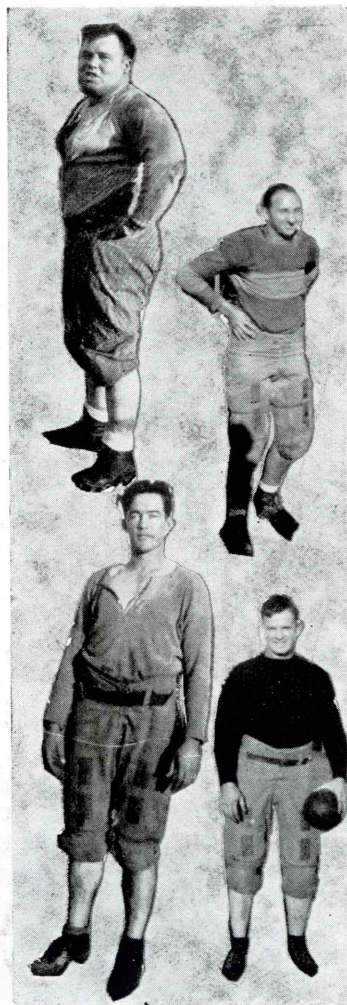

Who, in past years, has been on the end, came back to full this year and played the best game of his life. He hit them low and hard. He found the hole, if there was such to be found; and if there was no hole, he made one and went his usual way in gaining ground. He earned his place as All-State man.

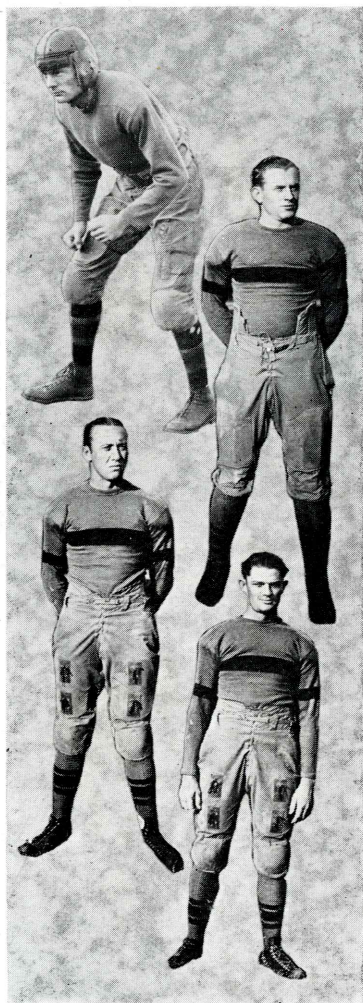

"HOUND" LINTON,

The big tackle, is a veteran on the gridiron. There is not an opponent of Tech. that may say, "Hound did not get me," for in every game, on every down, "Hound" accounted for at least one man, and what more could be expected of him?

N. O. WEBBER,

Who was the general of the team on the field, proved himself to be the real football make. To get his man, and direct the plays to his opponents' weak points were his hobbies.

OTIS REED,

The swift back and end, played the game all the time. When he was to carry the ball, a gain was sure to come; or if he was given some tough opponent to stop, he was never found lacking. His great defense work at Tulane, with other outstanding games, won for him mention in the All-Southern.

"PINKEY" WISE,

As a guard, is known to fill up as much space in a line as any other man his weight. You can depend upon his hitting at some place, and hitting hard at that.

HERBERT AUSTIN,

Who played the position of end, was one of the classiest men in action on Tech's field this year. Receiving passes was his hobby, but getting his man out of the play was another thing that he could do.

"MAC" COUSSINS,

Was a man, not so much in weight, but his fight and ferocious face have made many an opposing guard cast a longing glance at the side line. Give Mac a few more pounds and Tech will have an All-Southern man.

HAROLD WILLIS

Is a man that made New Orleans stand up and take notice, for the offensive work of Harold was responsible for many good gains against Tulane and Loyola. As a half he was one of the most elusive and swift as well as intelligent, of his weight.

TOMLIN

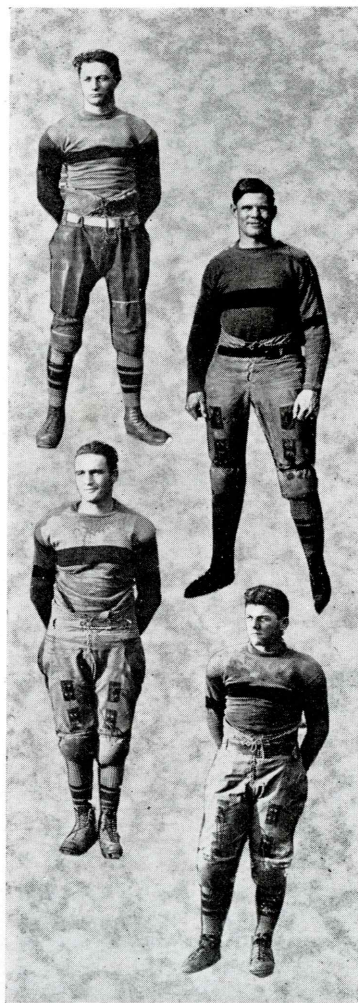

Better known as "Tommie," a new man at Tech, showed his wares at the end position and although handicapped because of a broken nose, he got into most of the games and let his opponents know of his presence by his hard hitting and team work, along with a smile that could not be removed.

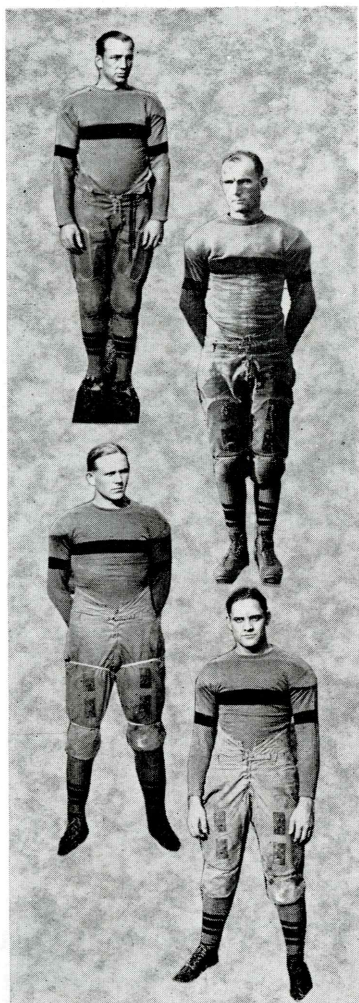

G. W. HOGG

Was a new man at Tech but while in the position of fullback proved himself to be 190 pounds of unstoppable humanity. His good gains through the line and his strong defensive work will be long remembered.

C. S. SENTELL

The quarterback, was one of the fastest and best broken field runners of the State. This was "Shortie's" second year as a varsity man and although he is young and has not the weight of a line man he fills his position like a professional.

A. E. "JOE GUM" MATHES

An end man, is an old head on the gridiron. Suffering from injuries most of the season he was permitted to play in but few games. There is no one, however, that will not say that "Joe Gum" had plenty of "Fight."

LOUEY WHITMAN

Is a second year halfback who has improved beyond all expectations since last year. He is fast, a low runner and a hard hitter. Once let him get going and he is hard to stop. Loyola found him sure enough hard to stop.

"BLONDIE" BRIDEWELL

Is a long, lanky fellow, but 204 pounds of terror on the gridiron. This was "Blondie's" first year at Tech, but as a center he has made a name which will be long remembered at Tech and her rival schools.

T. T. WILSON

Is an end who has, during his first year at Tech, made a name for himself. He was a sure man at the tackle and an all-round good man. In Wilson, Tech has the makings of a great football star.

W. J. B. (ALPHABET) JONES

Needs no introduction to the football fans of Louisiana and the surrounding States, for his position at tackle has been so well filled, both on the defensive and the offensive, that there are very few teams on which he has not "forced" a memory of himself.

HERMAN ANDERS,

When once started from the position of half, is a sure gainer of ground; and there are several teams in Dixie that will not argue against this statement, because of the fact that they have "had experience."

L. P. BRAZIL,

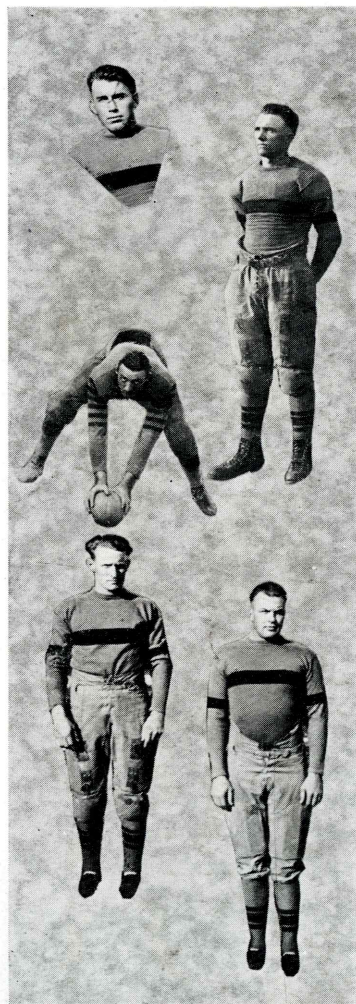

More often called "Pat," is a second year man at Tech's center position. Pat has seen service on the gridiron for several years and in memory of these days he wears a right leg that is somewhat crooked. But with all this, he is a punter, passer, runner, tackler, and a real center.

GLENN "RED" MCGEE

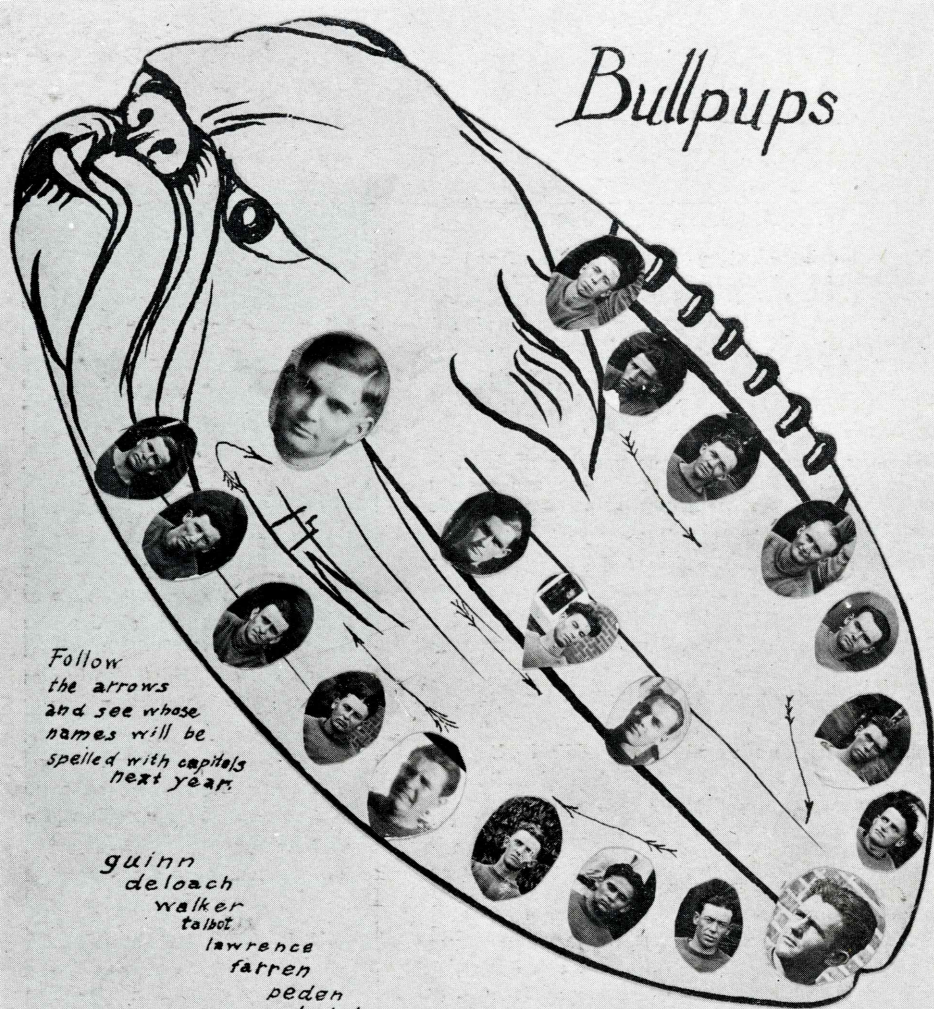

Tips the scales at 145 pounds, but it is the firm belief of all that have seen him in action, that he is one of the surest men who ever donned football togs. On the offensive, he is always there and still going on the defensive; just watch the runner and you will see Red in that vicinity.

FRANCIS TALBERT,

It is said, does some real playing at the guard position when he is mad and well fed. Judging from this, every one seeing him in action must think Ruston treats her men right, for Francis always delivers the goods when called upon.

When Tech boots goal at Tulane

See the Wolves fur fly

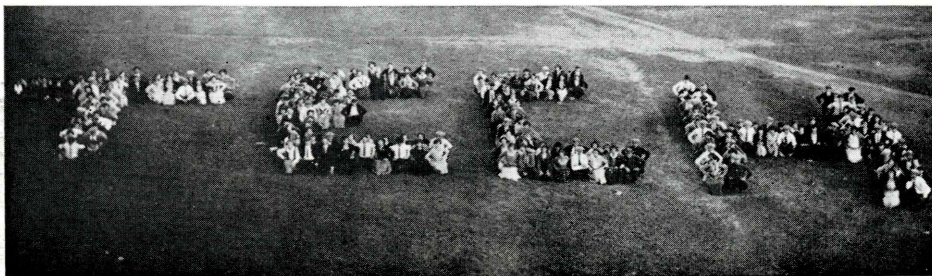

Taking Revenge on the Normal.

"Heads in men"— at Centenary

"Thanksgiving"— Enough said

Every great football team has had its eventful year in which it reached out and played games with colleges and universities of note, and made a name for itself in the football world. Thus the season of 1924 was Tech's great year. Coach Dietz, with the aid of assistant coach Smith, and Hollis, captain and halfback, rounded out a team which Tech was proud to send against the eight excellent schools which Major Prince scheduled for games. Material was not lacking this year, as in former years, and with the sixteen veterans of the past season and quite a bit of excellent high school material present, Tech had the brightest prospects she had ever had for a winning team.

Little Rock College was the first team to test Tech's strength. She came to Ruston on October 6 with a star team gathered from far and wide, but Tech was not to be outdone, and won by a score of 26 to 0.

At Arkadelphia, Arkansas, October 12, the Bulldogs came near meeting disaster when they played Henderson-Brown of that place and won by the close score of 7 to 3.

Tech was next seen in action October 20, against Tulane University at New Orleans. This was a game of utmost importance to Tech, and her team played as it never played before, but was forced to take the short end of a 13 to 7 score. However, in the memory of the South, she put herself down as having a real football team. Tech outplayed the Green Wave at all stages of the game, making more first downs, showing a better defense, stopping the Minnesota shift every time it was attempted, even checking the famous "Brother" Brown. Tech also excelled in the forward pass game, and the defeat was due only to the spectacular 75-yard run of Hennican in the early part of the game.

Millsaps College met her Waterloo on Tech's field, October 26, after having built a reputation for herself by winning previous good games. The score was chalked at the final down as 20 to 0.

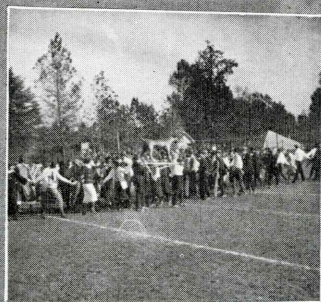

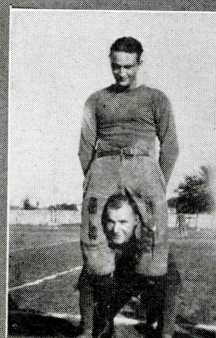

On November 3, Louisiana College was visited by the Bulldog team and a special train of rooters. The Wildcats' hide was torn in 40 places to the Bulldogs' 7.

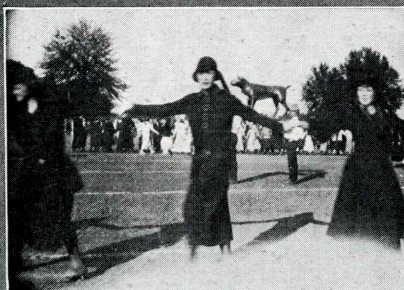

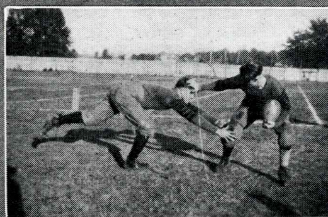

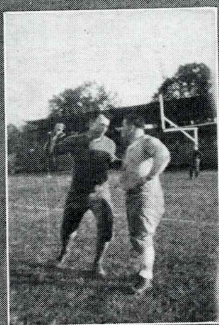

Next in order came Louisiana Normal with the expectation of giving Tech a nice trimming; but evidently the Ruston delegation did not agree with them, for Normal was walked all over for a score of 66 to 7. However, it must be said that the Normal team never stopped fighting, but was forced to submit to the stronger team.

Loyola University next sent a team against the Bulldogs with the hope of State championship spurring them on. Their team was made up almost entirely of stars from a great many colleges and was a great team. But that was the day that Tech played ball as never before, nor after. The team worked like a well oiled machine and showed its coaching as it should; in this shape Tech could not be beaten, so the Wolves were sent home with Tech upsetting all football dope and beating them 28 to 7.

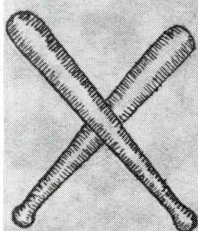

November 29 found the Bulldogs with 2000 staunch rooters, invading the territory of their arch enemy of the gridiron, Centenary College, of Shreveport. "Bo" McMillan had his "gentlemen" in the pink of condition; and although the game was long and the weather cold, it was one of the warmest ever witnessed in North Louisiana. Both teams tried every possible way to crush each other and in the end came the inevitable; Tech was beaten by the better team. The final score was 27 to 0. Thus closed the season, which, as a whole, is considered by many the most successful ever for Tech.

WHEN LA-TECH
MEN FALL IN LINE

FOOTBALL
SNAPSHOTS

BASEBALL

For the benefit of those who did not have an opportunity to keep up with Tech on the baseball diamond, and for those who would like a review of our most successful season, we are giving a brief history of Tech's 1923 baseball.

The season was started here on March 30, 31, when Louisiana Normal, the visitors, were sent home, having suffered one 15-0 and another 11-2 defeat.

Arkansas Normal came next for a series of three games on the L. P. I. grounds. The first and second games were lost to us by margins of 12-1 and 8-3. The last, which was to have been played on April 5, was called on account of death of Mr. Thatcher.

On April 9 and 10, Millsaps College had a husky team which came to Ruston and let the Tech club walk off with their team to the tunes of 9-6 and 9-4. The same Tech squad invaded Mississippi Normal on April 11 and 12 and carried off their scalps by marks of 8-3 and 17-1. On April 7, which was to be our big day, a large crowd of Tech supporters from Ruston and nearby towns gathered to see the L. P. I. boys lock horns with the Gassers. The game, owing partly to the stage fright of our boys, was lost with a score of 15 to 1. Haynesville came next, on April 21, when our boys visited that town and lost 7 to 6.

Louisiana College came to Ruston April 23-24 for her licking. She got two, one day 8-1 and again 3-2. On April 26-27 our army went on the road again. This time Centenary College was the one to suffer from defeats of 5-3 and 8-3.

The 28th saw our boys at Bastrop playing with the team of that place, and it was only after a hard fight that they won from us with a score of 6-3. Then Centenary called at Tech's door for some sweet revenge, which she thought was due her. But as our boys thought differently, Centenary had the candy taken from her mouth by the noise of 5-3 and 3-2 scores. These games happened April 30 and May 1. May 5, Monroe had the pleasure of turning back our boys with a score of 7-1.

Mississippi Normal paid her respects to dear "ole" Tech on May 11 and 12, and to show our appreciation, she was defeated by score of 10-6 and 5-2.

Millsaps College was the last college team to take a whack at Tech in the season of 1923, but it paid for its honor by losing to Tech by scores of 9-3 and 16-2.

This closes the history of our 1923 season, and as anyone may see at a glance, it has been a booming success. We were losers only four times—and then to professional clubs. We had a great club, made up of college players, several of whom have good chances of succeeding in the professional game.

"Coach Billy," we are proud of you and your team. Teams (both first and second), we are proud of you and your coach. Tech was back of you in '23, she will be in the same place in '24. So give us another team of the same stamp, and Tech's baseball history will be made.

1924 SEASON FORECAST.

Upon entering the 1924 baseball season, Tech has the makings of another great team of the diamond. Several of last year's stars are back this season, and a likable bunch of recruits are on hand to fill the places left vacant.

The schedule for this year is such that the boys will have an opportunity to show their ability quite often. It can not be even the fondest expectation that Tech will repeat last year's performance by turning out an undefeated team. However, the fans may well expect Tech to hold up her past baseball record, and have a team that is capable of holding the best of teams to a good game, let them be either college or professional.

1924 SCHEDULE.

GYMNASIUM ACTIVITIES

The Girls' Gym has at its head Miss Edna A. Arnold who is spending her first year at Tech. When it comes to being alive, the Co-eds are always there. They are divided into two groups, Reds and Blues. These sides are about equally divided and have a spirited tournament at the close of each ball season to decide the championship.

They have recently organized a Woman's Athletic Association and belong to the national organization of that name. This adds life to the gym work.

The Boys' Gym has A. K. Overby as the immediate "head knocker," while Major Prince is the "highest up." The boys are divided according to courses into Pensliders, Monkey Wrenches, and Outlaws. Each group elects its own captains and turns out teams in all lines of athletics.

In any institution of learning, it is necessary that there be some form of religious work among the students, so that the moral side of life may not be wholly neglected.

The Y. M. C. A. serves well in this capacity for the dormitory boys who attend school at Tech. Meetings of a devotional nature are held in the Y hall each Sunday evening throughout the school session. Many of the boys attend these meetings, manifest great interest, and take an active part in the work.

During the past two years, beginning with the fall term of 1922, probably greater progress has been made in the Y. work here than at any previous time since the establishment of the Y. in 1903; for it was during that term our organization became affiliated with the National Y. M. C. A.

Since becoming a national organization, delegates, serving as representatives of our Student Y. M. C. A., have been sent to various State and other conventions. L. L. Greer and J. H. Koonce attended the 1923 Southern Students Conference at Blue Ridge, V. W. Barber and R. M. Hood represented us at a District Council Meeting; R. M. Baskin and V. W. Barber served well as representatives to the International Student Volunteer Movement Convention at Indianapolis in December, 1923; and J. H. Koonce and S. P. Jones attended the first "State Constitutional Convention," in 1924.

This not only makes Tech known elsewhere, but gives the boys an insight into the big Y. field. May the good work keep going.

LA. TECH. SUNDAY SCHOOL CLASSES

Baptist.

"You bring the one next to you, and I'll bring the one next to me," is the motto of the Tech Baptist Class, and the members have been faithful in trying to "bring 'em."

Under the inspirational guidance of Dr. Keaton, the class has grown spiritually as well as in numbers.

The class was represented at the Baptist Student Convention at Shawnee, Okla., by Misses Floy Edwards, Frances Brooks, Louise Jarmon, and Messrs. D. Curtis Hall, Walter Moore, and Robin Hood, who gained for it the "rep of having Pep."

Methodist.

The J. O. Y. Class (Jesus first, Others second, Yourself last) and the Wesley Bible Class make up the Young People's Department of the Methodist Sunday School.

Mrs. Savery Lewis teaches the J. O. Y. Class, which is composed principally of town students. These young people enjoy a series of social events during the year and in all ways try to live up to the class name.

The Tech. Wesley Bible Class has for many years held the distinction of being the largest class of Methodist young people in the State. No one asks "Why is it so large?" after they have heard Mrs. J. M. Henry, the teacher, give one of her splendid talks.

Visitors are welcomed always, but as strangers only once.

Presbyterian.

Even while in cramped quarters at the Culture Club, Dr. Brown has had an interested group of students in this class.

Next year, when they are in the new church and have more room for expansion, we hope to have a picture of this splendid class.

Twenty-five years ago Tech's first graduate became an alumnus and began working for his Alma Mater. A short time later, when there were enough graduates to hold the required offices, the Alumni Association came into existence and organized the work of the graduates.

Many creditable things had been sponsored by the Alumni but they seemed to fade into insignificance at the annual meeting in June; all the talk was of the future. The silver anniversary year should be the biggest and the best ever known by the association. And indeed, were it to close now without the wonderful commencement jubilee, it could be classed as the best.

The Thatcher Memorial Loan Fund was first established. In the fall was the home-coming and luncheon the day of the big Normal-Tech game. Later it was the banquet and booth at the Louisiana Teachers' Convention in Alexandria. But the greatest success was in the North Louisiana High School Rally sponsored by the Association during the year.

Live district organizations have been perfected and interest aroused over the question of life membership.

All eyes on the Alumni Association at their glittering Silver Celebration.

Women's Athletic Association was organized December 1, 1923, with a purpose to promote athletics, to create a love of sports, and to foster the ideal of good sportsmanship. Miss Arnold, our physical director, organized our W. A. A. with 30 charter members and our membership has grown to 48 members.

Membership in this organization is gained by making varsity squad in volley ball, basketball, track, tennis, or baseball. All the

girls in the department are working toward their "T." This is awarded the girls making the required number of points which is 1,000.

Beside working for their letter, numerals are awarded to those making varsity squad and playing the equivalent of one-half of a match game.

This organization has been a great inspiration to the girls and we believe "The game's the thing—never mind who wins."

Friday Night at the Astor.

Take this picture, pal, and keep it,
Prize it more than jewels rare;
Perhaps you sat there when 'twas taken.
Don't you wonder now who's there?

We can't forget our Friday nights,
Lest we forget our gang and all;
So take this picture, pal, and keep it:
Astor's memories to recall.

—Wilber E. Mecom.

THE SCHOOL YEAR.

Saturday, April, 1924—and ever since that party they have called him "Spring Chicken," even when he is on the ball diamond. G. K.

Sunday Night—The funniest thing I ever saw! They had on the craziest looking clothes: it was muddy and one of the players for the "Fats" was coming in home when he slipped. K. A.

May 5—We all pitched in a quarter and bought pickles, candy, cakes, and all kinds of good stuff. We hiked to Pugh's pond about a mile from the campus and had more fun. Went in wading and— E. F.

May 15—so romantic with the Hawaiian scenery and a big moon! The men were perfect sheiks! We were just thrilled to death when— M. B. R.

May 21—and of course the Studes won. The faculty really surprised us though as some of them stepped around real lively. Gun Boat caught a fly. F. E. L.

May 30—I did not get to be in it as I had sprained my ankle. It was the first one Tech had ever had and the boys got to come so you know it was exciting. Capt. Kidd pinned the ribbons on the winners. H. R.

June 10—rained like everything. Bishop McMurray preached the sermon. If you were to judge that man by his size, he would be *some* man. S. L.

June 10—Cap and Gown Club had their first annual banquet at the Beckham House. Gladys Kidd was toastmistress. W. W.

June 12—had an Alumni program in chapel and then went to the dining hall for the banquet and some more speeches. V. N.

June 13—Sophs presented their class play "The Rivals." Gladys West was most charming as the heroine, while Vaughn Barber made quite a dashing captain. L. S.

June 14—Edgar Walker was the Junior College Representative and Sue Willie Price the Senior. R. L. V.

June 14—curious thing for a mother and daughter to get their degree together, Mrs. M. A. Price and— W. M.

June 18—now use the new dormitory. Chapel is simply packed and we have one of the largest enrollments in the history of the school. A. B. S.

June 20—Cap and Gown Club went to Darbonne for a watermelon supper. Some of them got head washings, too. J. P. W.

June 30—I have decided that I will come back here to school next fall instead of teaching as I had— E. T.

July 4—just a glorious day with barbecue at the park and a wonderful time. L. S.

Sunday night—to Chautauqua, on a truck and carried our supper. The roads were awful and the boys had to push us out of a mud hole. We had a wonderful time, though, and made worlds of noise coming through town. R. B.

Sept. 24—know you will want to know all of the news. Mr. Howard and Miss Gregg were married Sept. 4. We were not a bit surprised though, as— A. N.

Sept. 24—I like the place fine, room on the second floor and have a matron just like Auntie D. C.

Sept. 24—Didn't flunk anything but I have that hard boiled science teacher, and I'm having my turn at shoveling coal for shop. H. H.

Sept. 26—They were both old Tech studes. They're staying at J. W.'s parents. I don't blame him for falling, Helen is so pretty. V. G.

Sept. 27—12 of them. Miss Haring is the new French teacher. Then there's a new one in the music dept. and a whole bunch in Home Ec. J. K.

Sept. 29—Shelby is our new president, Lena Slay, secretary, and Wade, treasurer. I hear Wade voted for himself, don't blame him, money always did appeal to me. L. C.

Sept. 30—was Tech day at the Methodist Sunday School. Everybody wore red and blue and the rooms were decorated in pennants. Sure did look spiffy. E. Mc.

Sunday—Greer and Koonce made a report on their trip, June 13-15. They must have had a ripping good time, judging by what they said. Hope I get to go. H. H.

Wednesday—Several girls from town came out. We practiced some of the old yells and learned some new ones, one starts out "Lou rah rah! Isi rah rah—" B. N.

Thursday—sang in chapel this morning, my favorite, "An Old Fashioned Town." I have been crazy to hear her, wish she would sing oftener. G. W.

Saturday—Canteen manager is Ruby Brett. I'll never save a penny with pickles and candy both in the Y. store.

Oct. 6—first game of the season, and we beat them. Made ole Little Rock College— C. P.

Oct. 6—Elsie and Weydert have charge of the Spizz now. I'm sending you our first issue so you can see what a nifty news sheet we have— T. B.

Mr. Sutton: "Do you desire to become my son-in-law?"

Orion: "No, sir, but if I marry Elsie, I don't see any way out of it."

Lyles: "I have a cuckoo clock right in my room."

Shelby: "Yes, ours doesn't work well either."

Tyler: "Cicero, why are you wearing your church shoes this morning?"

Cicero: "Why, I'm going to have my picture made for the Lagniappe."

Ann: "Why so sad?"

Wade: "I just happened to think, dear, that this is the last afternoon that we can be together until tomorrow."

Fox was at home at last. He had been away at school at Tech. "Lee," cried his mother, throwing her arms around his neck, "you have hardly changed at all."

"I know, mother," he answered in a sad tone, "but the laundries there as so hard on clothes."

Gus Hoge (as he finished his rhymes at the club): "I put my whole mind into that poem."

Barber: "Yes? I noticed it was blank verse."

Mr. Caldwell: "Order, please."

Whitman (just waking up): "Ham and eggs."

Douglas Folse: "Do you make life-sized enlargements of photographs?"

Mr. Davis: "Yes, sir, that's my special line."

Folse: "Well, fix this up for me. It is a snap shot I took of a whale."

God made Tech girls beautiful and foolish.
Beautiful that the young men might love them and
foolish that they might love the young men.

Miss Johnston: "I'm afraid I'll have to give you zero."

Edgar Walker: "That's nothing to me."

Miss McLure: "When did the revival of learning begin?"

Hound: "The night before exams."

Gladys: "Pat, there's something dovelike about you."

Pat: "Really?"

Gladys: "Sure, you're pigeon toed."

Mary Lou Pipes, seeing Bruce Smith walk past: "Miss Floy, what do these Seniors work at?"

Miss Floy: "At intervals."

Jewell Bailey: "Isn't it strange that all handsome boys are conceited?"

Red May: "Oh, I don't know. I'm not."

Miss Varnedoe, at The Palace: "I want an E violin string."

Big Jimmy: "Will you please come around here and pick it out? I can't hardly tell the E's from the She's."

Lester: "Do you remember when you were first struck with my beauty?"

Walter: "Yes, it was at Mildred's masked party."

Many of the boys seem to know how to keep that school girl complexion on their coat collars.

Weydert: "Been reading Longfellow?"

Odom: "Naw, 'bout fifteen minutes."

It is not a poem.

Here's to the co-ed who's never been kissed,
Here's to the co-ed who ne'er broke a date,
In short, boys,

"Fire?" apprehensively. "And how do you play that?"

"Oh, it's heaps of fun! Dora makes believe she's a door and I knock her down."
